AURA 境

不規則的內凹弧面，搭配高低起伏的斜切玻璃端口，輕轉燈罩，光線便隨著角度變換，折射與反射交織其間。明暗在玻璃之間流轉，勾勒出錯落有致的光影。空間因此有了不同的表情，每一次點亮，都像展開一幅隨光而生的畫面。

光落之處，景致也隨之變換。時而明亮，時而幽微，細碎的光影在空間裡輕輕流動，為日常添上一抹耐人尋味的情調，也讓人在不經意間，感受到光所帶來的獨特風景。

AURA features softly sculpted concave curves and a gracefully slanted glass rim. With a gentle turn of the shade, light shifts through the glass, creating a delicate interplay of reflection and refraction. Layers of light and shadow unfold, giving the space a different expression. Each time AURA illuminates, a new scene comes to life, shaped by light itself.

Where light falls, the scenery transforms. From luminous to subdued, intricate patterns of light drift through the space, adding a touch of intrigue to everyday moments and revealing the unexpected beauty of light.
