

岑，字義為小山，山小卻高。一座座小山穿雲而起，矗立天際，彷彿懸浮於雲海之中。陽光落在山腰與雲霧的交界處，霧氣漸稀，縈繞盤旋，幻化為一圈金色光帶，自成奇景。漸層內噴砂玻璃工藝，清雅演繹雲霧托起小山的意象，讓柔潤光氛自然烘染簡約山形輪廓。金屬與玻璃相映成趣，異材質的交融以復古金飾帶作為點睛之筆，於空間裡凝成一道雋永的金色印記。岑，以山為形，以光為韻，於日常中安放一座小山，為居所添一隅雲間風景。

Cén, by origin, means a small yet lofty mountain. Humble in form yet reaching high, it appears to float before our eyes. At the line where the mountain meets the mist, sunlight gathers and weaves a golden ring of light, wondrous and unreal.

Through inner sandblasting on handcrafted, mouth-blown glass, the piece unfolds in soft, warm light that diffuses gently through its silhouette. The artful fusion of metal and glass turns vintage gold accents into a golden flourish, imprinting the space with timeless radiance. Cén, a mountain in form and a rhythm of light, quietly resting in the everyday, gifting the home a touch of cloudscape.
