EDEN 初光

傳說中，伊甸園（EDEN）的清晨沒有喧鬧，只有光慢慢醒來。那是一種尚未被打擾的境地，乾淨、柔軟，像露水落在葉面，像果實在枝頭微微發亮。

初光取「果實」為形——蛋形輪廓收斂線條，把光藏進圓潤之中。當它亮起，像一天的第一道光穿過草葉與樹梢，安靜地把世界喚醒。白玉玻璃燈罩頂端以金屬蓋搭配天然木紋飾邊，像枝與果的相遇，在精準的收邊之下，光從內部緩緩散出，像飽滿的晨霧——近看有質地，遠看更純粹。

晨曦的第一步，從一盞初光開始。

Legend has it that mornings in the Garden of Eden begin in perfect stillness, where light slowly awakens. A world untouched by noise, soft and serene, like dew resting on leaves and fruit gently glowing among the branches.

Inspired by the shape of a fruit, EDEN embraces a smooth, oval silhouette that holds light within its gentle curves. As it illuminates, a soft glow emerges like the first rays of dawn filtering through the trees. The opal glass shade is crowned with a metal cap and natural wood-grain trim, bringing together the warmth of nature and refined craftsmanship. Light diffuses softly from within, creating a misty glow that feels rich up close and pure from afar.

Let the first light of day begin with EDEN.
